GST is a stricter law and documentation is critical. Hence we will need dealer to adhere to the laws. To provide a credit on GST which at the highest slab works out to 50%, we have to take a stricter approach with user and they would mean dealing only with our preferred dealers. In this way we will be able to provide the input credit and also take the responsibility with us. In case if the user insists on his dealer then the responsibility will be of the user who has to ensure that his dealer has to mention ORIX and the value of GST including cess has been filed against ORIX GST NO. Post verification of dealer filling as per our Purchase Order we will then be able to make payment to dealer
